- Accessibility

PROFESSIONAL EXPERIENCE

WebTopTech

Frontend Developer

- Writing maintainable and clean code using **React** framework.
- Collaborating with UI/UX designers and backend developers to deliver websites for clients.
- Personally designing and implementing the company's website using **Wordpress, Html, Css, JavaScript**.
- Developed an online restaurant platform for ordering food, enhancing the digital presence of the restaurant.
- Managed state using **React Context**, improving the application's scalability and maintainability.
- Integrated **React Query** for efficient data fetching and state management, ensuring real-time updates and smooth performance.
- Worked closely with backend developers to integrate API endpoints and ensure seamless data flow between the frontend and backend systems.

July 2022 - Present

Fullstack Web Developer

- Developed a comprehensive website for a professional photographer, featuring both a public-facing site and an administrative dashboard.
- Utilized **Reactjs** and **TypeScript** for the front-end, creating a responsive and visually appealing user interface, with Implementing RESTful APIs using **Nodejs** for efficient client-server communication.
- Managed data storage and retrieval with **MySQL** and **Prisma**, ensuring robust database performance.
- Created an admin dashboard to manage website content, including photo galleries and informations. And integrated authentication and authorization for secure access to the admin panel.

Freelancer Frontend Developer

- Collaborated with various clients to design and develop user-friendly and responsive websites.
- Successfully managed more than 5 projects by meeting clients specific requirements and delivering high-quality results within agreed timelines.
- Demonstrated communication and collaboration skills in client interactions, ensuring a clear understanding of project objectives and perfect execution.
